

## Hertfordshire Outcome Framework for Children, Young People and Families (The Outcome Bees)

### Scope of This Chapter

A new Outcome Framework has been developed in Children's Services in collaboration with our partners called the Outcome Bees.

The new framework aims to ensure that there is a shared vision and objectives for children, young people, and their families in Hertfordshire.

The new framework will influence the development of strategies, policies and procedures located within the Social Work Procedures Manual by ensuring the aim of the developments work towards improving outcomes to children, young people and their families.

For more information please visit the [Hertfordshire Outcome Bees Page](#).
